Closing Clinic Duties

CPR Closing Staff: Have you completed the following?

Lobby light switch

1. Lock all doors. **(The right front door has top and bottom latches. Please close them.)**
2. Turn off the automatic doors. **The button is located on the top right of the main doors in the clinic lobby.**
3. Turn off front desk lights and lobby lights.

4. Ensure all patients are **checked out** in Epic before closing. **Cancel** any nurse visits for patients who did not show.
5. Perform the closing procedures of the cash drawers. Put money in the designated lockbox.
6. **Clean** the lobby of trash and sanitize tables, chairs, and counters.
7. **Initial** the binder to confirm the money was counted and correct (located in the drawer with CaviWipes and gloves).

Front door top latch

Note: If you are the last person to exit the clinic, enter the alarm code before leaving. You may use either the front side door or the back door keypad-BOTH will arm the entire clinic.

Contact Maria if you have any questions!
